**NARRATIVE: (What's the story?)** Rules for vampires is a book based on a 111-year-old vampire (Leo) who is technically in an 11-year-olds body. At 111 all vampires must complete their waxing moon- to complete this they must hunt and perform a bite on a live human. This was very important especially because Leo's family is old and has existed over thousands of years and none of Leo's ancestors had ever failed yet, but when the moon rose on her special night she did not rise to the challenge and disaster occurred.

**STRENGTHS: (What did you like?)** I thought the book was unique, no other book I have read has been remotely similar. Although I may not have picked out the book in a library, I really enjoyed reading it and it transports you and keeps you intrigued. I thought the ending was very wholesome and enjoyed the book until the end. I think this book would be good for the age range 7-12 and people who enjoy fantasy books would love this book too. ALSO, I RECOMEND THIS ON HALLOWEEN AS IT HAS THAT SCARY KICK TO YOUR DAY!

**WEAKNESSES: (What did you not like?)**

I didn't really hate anything, but I just wanted more pictures as this will help the reader know what the characters is doing and where they are.

Final thoughts: overall, I think this was a very good book that can be enjoyed over a range of ages.

**FINAL THOUGHTS:**

**If you like 'spooky' books, you will really like this!**

WOULD YOU RECOMMEND THIS BOOK? YES
