Dear Parents/Carers

Year 11 Triple Science Intervention Sessions

As you are aware, our students will sit their Science GCSE Examinations at the end of this academic year. In order to prepare them for the upcoming examinations, the Science team will be running intervention sessions after school each week for our Triple Science cohort. Further details are outlined below.

Day of intervention: Monday

Timing: 3:10- 4:10pm

Location: M3 & M8

After school intervention sessions will have a Biology focus and will be led by Miss Mahmood and Miss Begum. The sessions will focus on exam practice and reviews of prior learning. It is vital that your child attends in order to effectively prepare for their upcoming GCSE exams. Non-attendance to revision sessions will be taken extremely seriously; it is crucial that you support us in encouraging your child to attend with the correct equipment. All Triple Science students should have their revision guides and exercise books with them, along with any additional revision material required for the session.

If you have any further questions, please do not hesitate to contact me on 0121 566 6500.

Yours sincerely

Miss S Mahmood
Head of Science
